DEVELOPER

Hey, I'm Ahsan

front-end developer
& Digital Graphic designer.

Who are the front-end developer and graphic designers?

A Front-end developer basically a web designer, who can design a website using Markup Language like HTML, CSS ,JS (Script) or jQuery so on.
A Graphic designers basically use software to design like photoshop, Illustrator. They can design PSD for website, book cover, visitng card, and many others.

HIRE ME

Dream Big

Become a Web Developer

I already learned the basic HTML and CSS. I can build any simple website. I can even teach my grandma how to make simple website. My goal is to build 3 websites and learn advanced topics.

Experiences

Full Stack Web Developer

2022-Present | Pro Level Developer

I am the master of HTML, CSS and Javascript. I know everything needed to make a website function, efficient. I didn't stop with the web. I went beyond with most popular Javascript framework called Vue JS. I even know the deployment, server and security. I will give you 100% web solution.

Baby Web Developer

2021-2022 | Programming Hero Learner

They didn't offer me a job. But I made myself as a remove web developer. I made their website and showed it to them. They liked it. And uploaded the content. It was fun working at Programming Hero.
